Enabling
PARADIGM
SHIFT
Through
EXPERIENTIAL
FRAMEWORKS

Hello, I am Rakesh Jain, a BELIEF SCIENTIST and an ADVENTURIST. My life altering EXPERIENTIAL FRAMEWORKS (EFs) are at the leading edge of the paradigm shift movement across India.

We TAILOR result oriented FRAMEWORKS in the field of leadership development, team building, and evolutionary skills for TOP to MIDDLE LEVEL INFLUENCERS and DECISION MAKERS.

Most people experience a staggering shift in their beliefs and hence approach to challenges after participating in our evocative Experiential Framework programs.

The
outbound activities are
good. Exercises are customized to
our specific work environment.
Excellent result-oriented activities are
highly motivating for the team, enhance
team coordination, and bridge the gap
between employees.

This program is really excellent. More important, the connectivity with the participants and the materials related to the home place is great. Thank you.

*Bipin Kumar Behra,

STI India Ltd*

The participants step out of their inhibitions to allow the unfolding of their minds and spirits in a safe environment. These Experiences are **EVOCATIVE and Healing.**

EXPERIENTIAL FRAMEWORKS

Experiential Framework **ENGAGES** you to **EXPERIENCE** leadership or team dynamics or both, hands-on. Your choices during the challenges reveal your underlying beliefs.

We ASSIMILATE more by **DOING**.

Programs conclude with a comprehensive **DEBRIEF** where the participants **SHARE** experiences and **REFLECT** upon them.

The **DECODING** of experience enables you to identify your limiting beliefs. The new insights **EMPOWER** you to substitute them with fresh contributory set of beliefs.

Experiential Frameworks for your corporate challenges and goals are nuanced with empathy and principles of behavioural dynamics, NLP, Happiness, and Mountaineering.

Team Rakesh Jain accompanies your explorations with gentle acceptance and support. Our Experiential Frameworks have enabled Paradigm shift for leaders and teams from diverse profiles - manufacturing, software professionals, Pharma, NGO, Banking, and faculties of renowned Schools and Colleges.

RAKESH JAIN

Our Experiential Frameworks enable an optimization of your potential through the powerful connection you make with yourselves, nature, and your coparticipants.

“ Excellent learning through well designed games. Activities reinforce thoughts and concepts smoothly.

**A new level of
LIFE ALTERING
experience.**

Outbound **EXPERIENTIAL**
FRAMEWORKS
For Corporates

The basic philosophy behind our outbound Experiential Frameworks (OEFs) is -

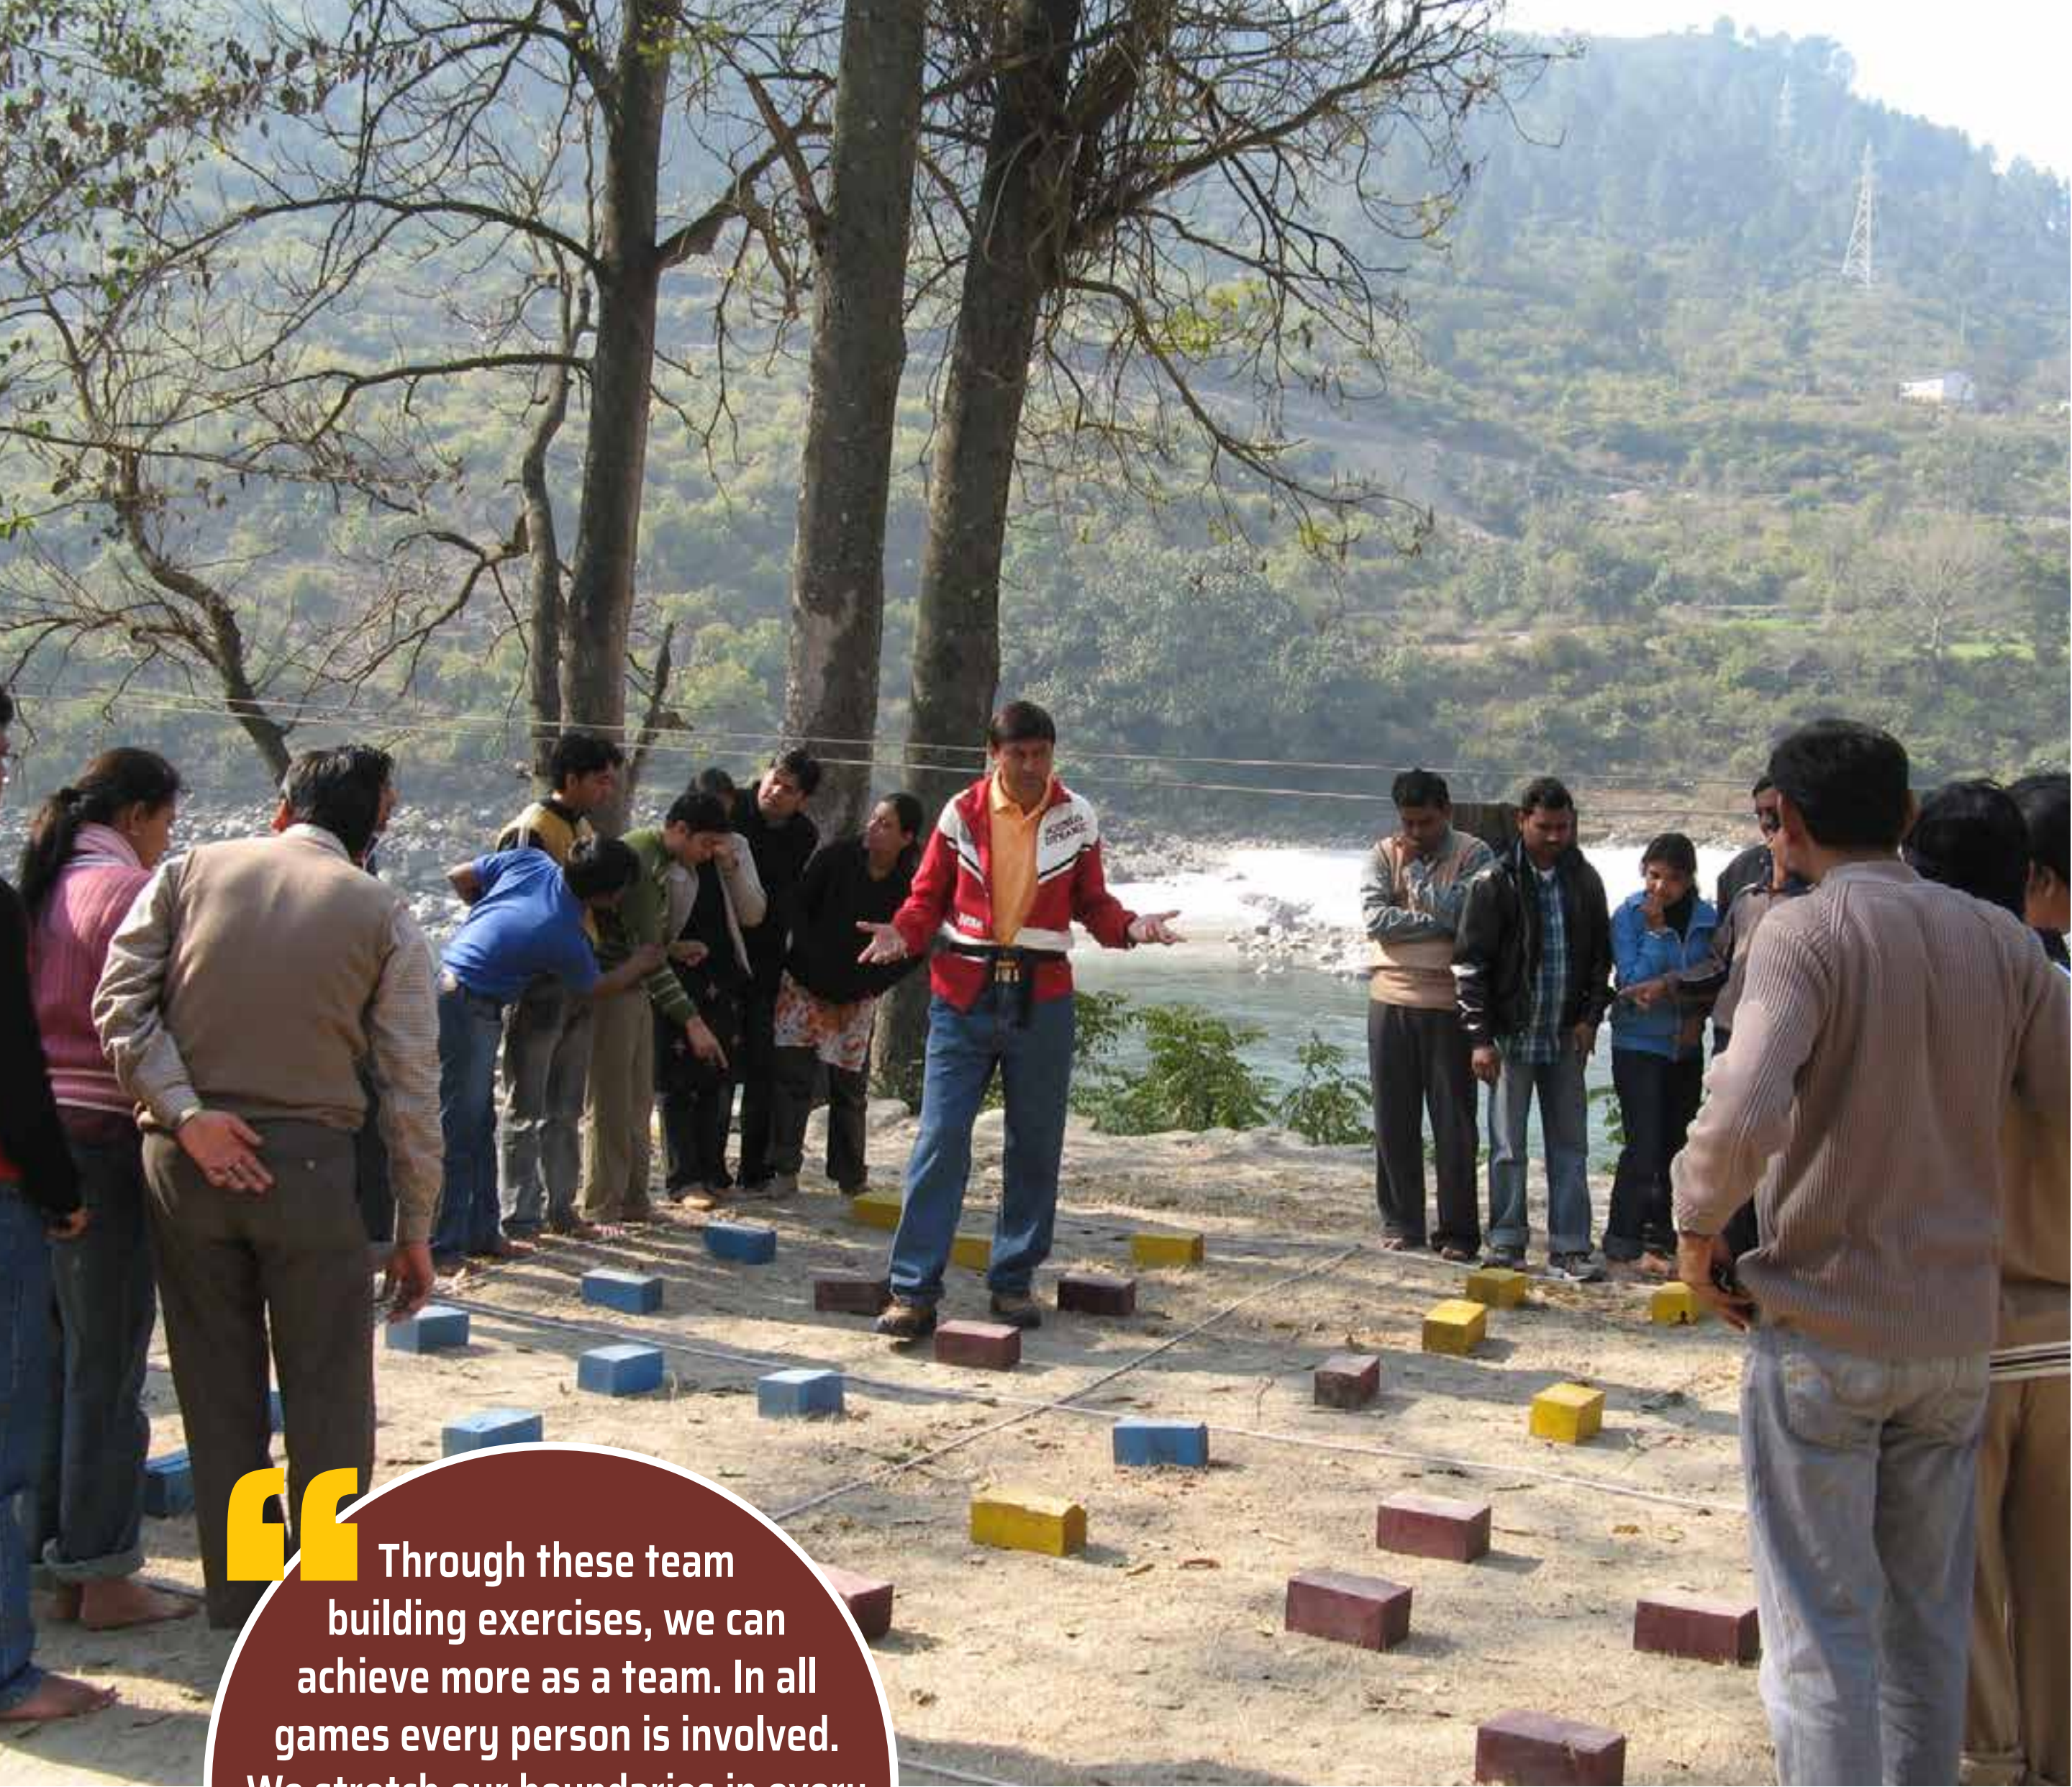

**In our unbridled interactions
and adventures with nature, we
Expand, Explore, Experiment . . .
we EVOLVE.**

An interaction with nature is not about appreciating the scenery from our balcony, it involves becoming a part of the scenery, finding our connection with nature, and channelling its organic wisdom through us. The mountains, rivers, forests, are not just elements in a landscape, they are alive forces of nature.

When climbers hike up a mountain, raft through a river, or hike in a forest, overcoming many challenges, these forces of nature invoke in them abilities they had never known to exist within them, abilities that will make them meet life with enhanced sense of worthiness, dream bigger, and achieve more.

**The Rakesh Jain Outbound
Experiential Frameworks are a
combination of unique
challenges in the wilderness to
ENABLE a REVOLUTIONARY
PARADIGM SHIFT.**

Really nice experience for me. I didn't expect this kind of program from a corporate organization. I have learned a lot from the program watching others. I have thought a lot after some techniques like the three rings technique. I would like to thank Mr. Rakesh Jain and all others for this wonderful experience.

About

PARADIGM SHIFT

Paradigm is the set of beliefs that form theoretical and philosophical framework of our reality. These beliefs are created through our conditioning, education, socio-cultural influences, and experiences.

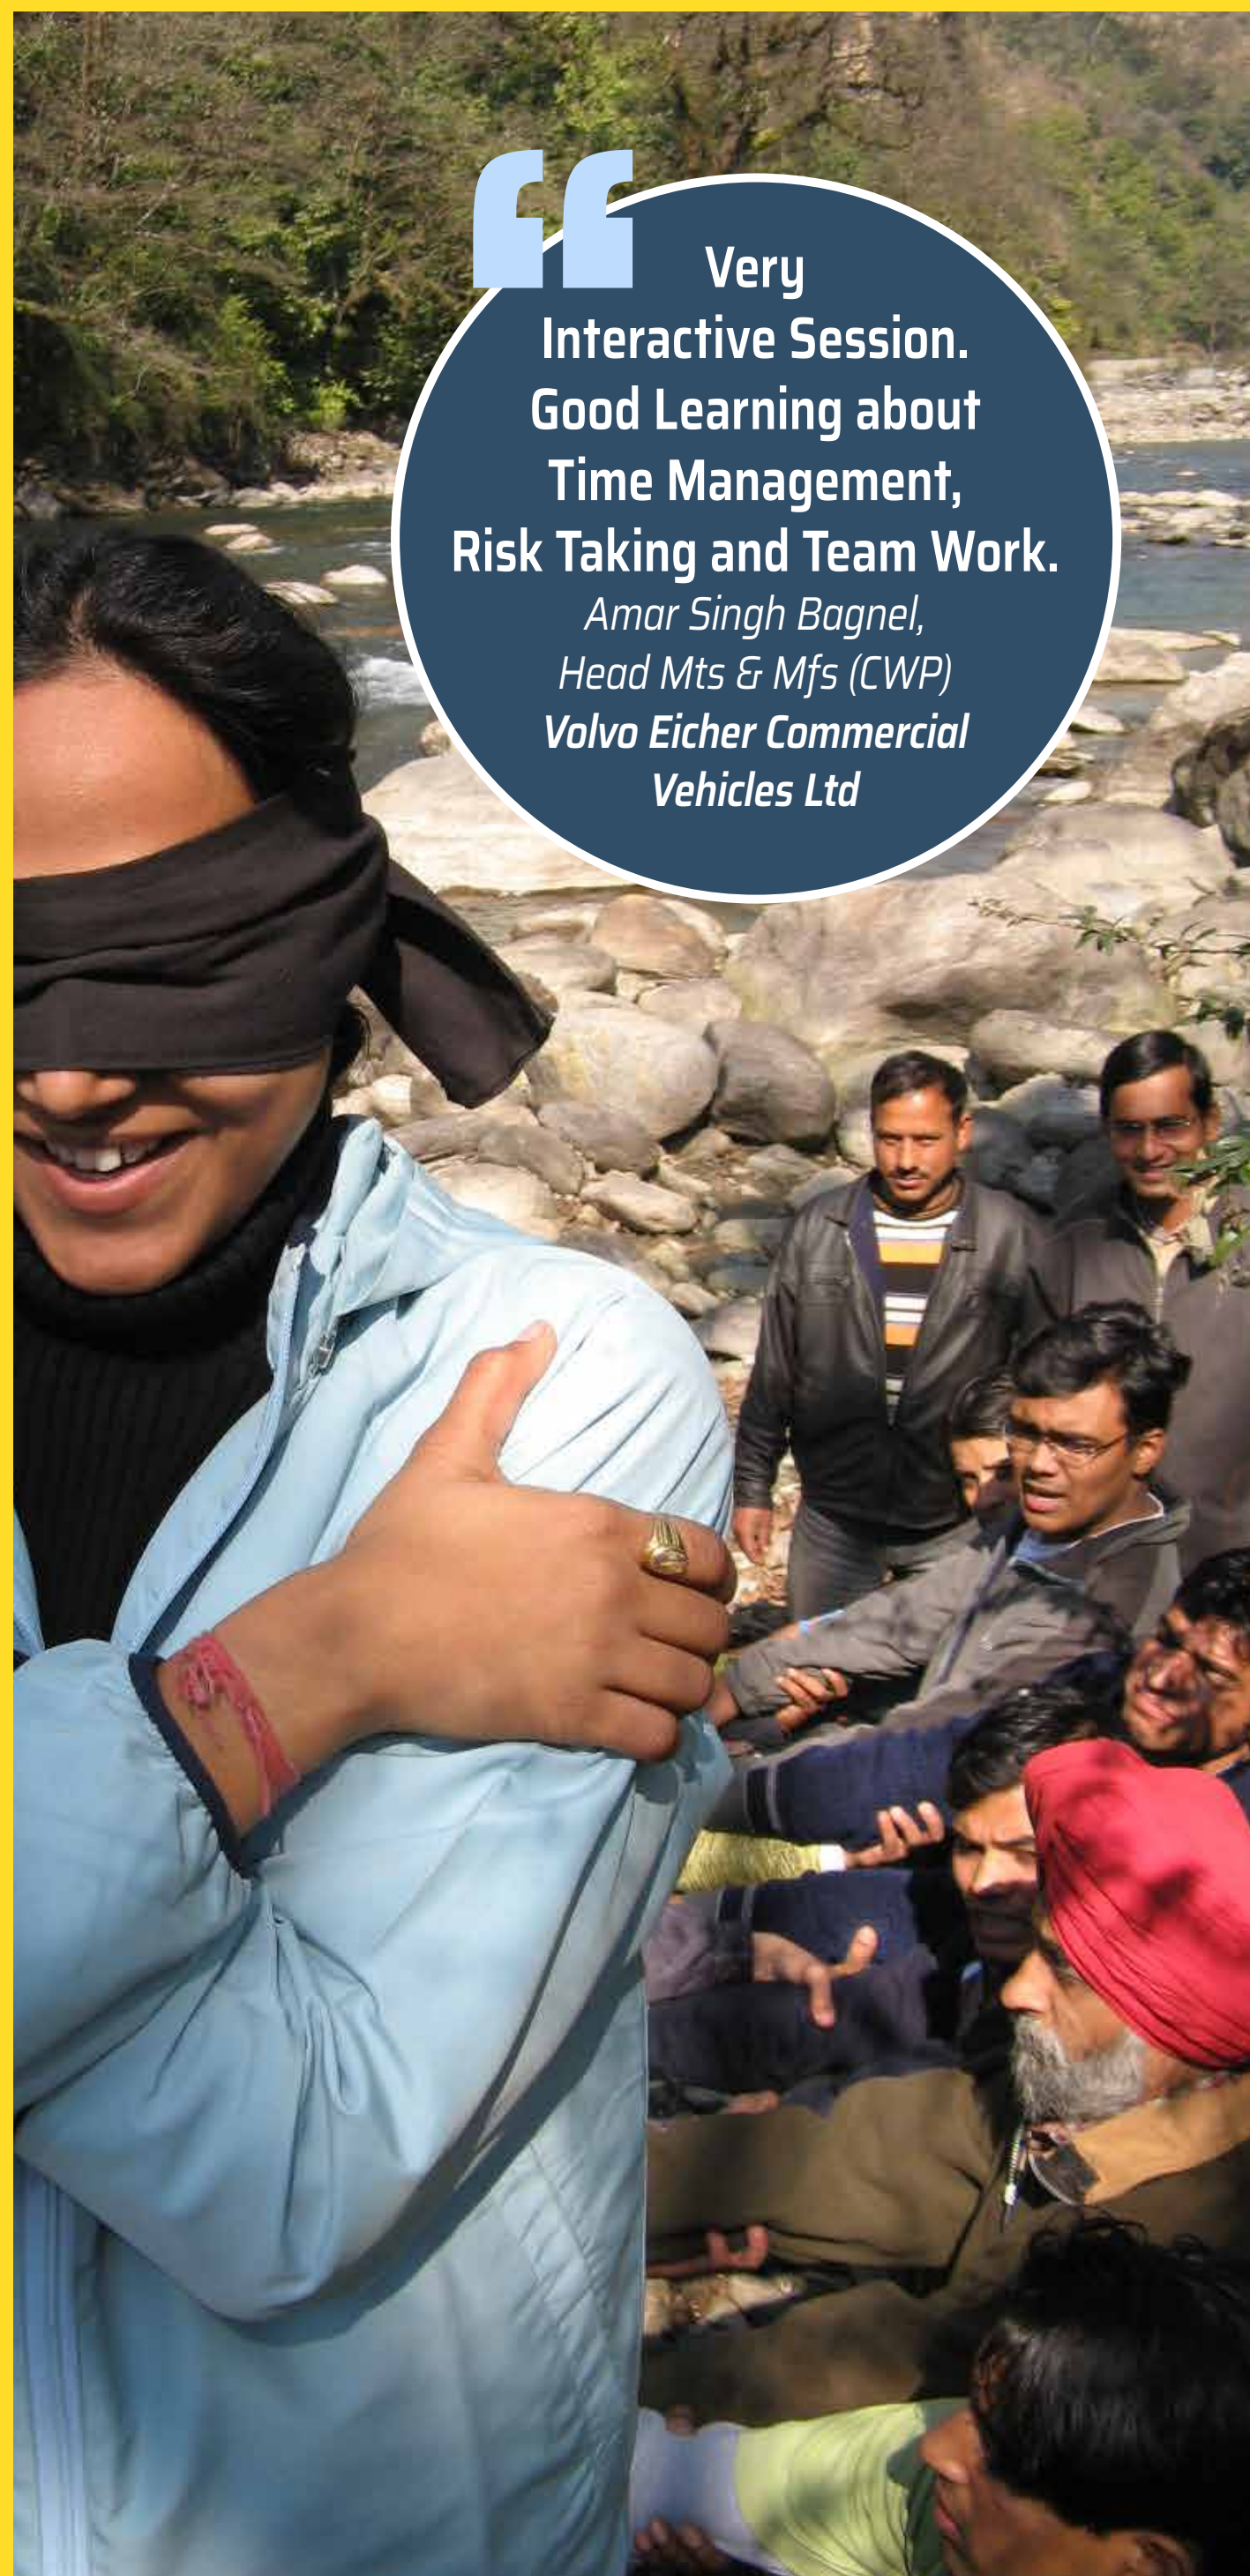

PARADIGM is FLUID

A paradigm or set of beliefs are not set in stone! They can be changed, and the moment they change, our reality and outcomes change too!

PARADIGM is SUBJECTIVE

No Paradigm is an absolute truth. What works for you may not work for me. Our unique set of beliefs work for us and must change with time and necessity.

PARADIGM SHIFT refers to a profound change in the concepts and approach and can occur within any context - in scientific realm, leadership, business, or in daily life. A paradigm shift results after the status quo is consistently challenged or when some revolutionary innovation or discovery renders it dysfunctional.

Very Interactive Session. Good Learning about Time Management, Risk Taking and Team Work.

I finished my Engineering and MBA(HR), and like any young man with these qualifications, followed a corporate life map crossing one milestone after another. Corporate jobs, moving abroad, upward climb . . . the works. It was a fabulous life, but for a little and a sharp nudge in my heart. I quit corporate life and returned to India to make peace with the mountains that hollered my name.

I applied the WISDOM ACQUIRED FROM THE MOUNTAINS to my personal and professional life, and with every obstacle that my family overcame, we DISCOVERED new WINNING PARADIGMS.

Today, my innovative approach is the hallmark of my life, business, and relationships. My Experiential Frameworks have enabled Paradigms Shifts in countless lives. My forte are frameworks that harness elements of nature to communicate complex ideas, making them fun while optimizing self-exploration.
